GeoGuessr World Championship 2025 – The Final Takes Place in Copenhagen

The world's top GeoGuessr players will gather in Copenhagen for the grand final of the GeoGuessr World Championship 2025. Held at the iconic K.B. Hallen, the event invites both players and spectators to a weekend filled with geography, music, and an engaged community.

GeoGuessr, the global online game where players are placed somewhere in the world and must figure out their location, has become an international phenomenon. This year's competitions now culminate in an exciting final where the best in the world will compete for the championship title.

It has been a long and exciting journey to get here, with intense competitions taking place at Tokyo Tower, DreamHack Dallas, and the first edition of Glitched in Jönköping, as well as a global digital Open Major where 16 players participated from their homes. Now we are bringing together the very best for a final that not only celebrates the game and the players, but the entire GeoGuessr community, says Mikael Falgard, Head of Esports at GeoGuessr.

In addition to the competition, the weekend will feature a stage with several well-known artists and special guests. Icona Pop, the Swedish electro-pop duo behind the global hit "I Love It," will deliver one of the weekend's highlights with a high-energy live performance. Mapei will also take the stage, bringing

her genre-blending mix of soul, hip hop, and pop, while Niki and the Dove will offer dreamlike pop in a visually captivating show.

Also appearing are The Sidemen, the British YouTube group whose live performance promises both entertainment and surprises.

Between the music acts and final matches, visitors will have the chance to take part in on-site GeoGuessr challenges, play live with fellow fans, or even face off against a pro? This is an event for everyone, whether you're a dedicated GeoGuessr player or simply curious to experience something new.
